

Conference Registration Support for Students

Students:

Conference registration support for full-time students may be available based on conference fund-raising efforts. The deadline for interested students to apply is March 15, 2019.

Eligibility: Full-time student at a Canadian University

Submission Requirements*: Submit in a single email to cawoudsma@ctrf.ca. The email subject line should read: *Student Conference Registration Support*.

In your email, confirm:

- you are interested in being considered for registration support
- you are a full-time student at a Canadian University
- if you are a conference paper author (i.e. will be presenting a paper at the conference)

*The applicant is responsible for ensuring all submission requirements are met.

Criteria: Awards will be decided by random selection. The number of student support registrations awarded depends on the number of student support registrations received.

Announcement and confirmation of registration support: Announcements will commence after the application deadline. After the deadline, if additional sponsorships are received, registrations will continue to be awarded. Selected student(s) will be notified by email forthwith. Before the award is confirmed, the student shall indicate by email, acceptance of the registration support and agree to attend the conference. Support is limited to registration fees only, therefore the selected student(s) are required to confirm they have funding for travel and accommodation and will attend the conference. If a selected student does not confirm his or her acceptance and ability to attend the conference within a specified time, the offer will be rescinded and offered to another student.
